

Technology Training & Classroom Integration

It's never been easier to train on new technology and encourage classroom tech integration. Atomic Integrate offers a cost-effective professional development, technology integration and support solution that empowers educators to effectively utilize technology to impact student achievement. Research shows students double achievement growth in math and reading when taught by teachers who utilize Atomic Learning.

- 21st century skills assessment
- Earn graduate credits through completed training
- Upload your own custom training content (optional upgrade)
- Workshops on Technology topics
- Classroom Tech Integration Projects
- Spotlights on topics such as Meeting eRate Requirements
- Access your training through the Atomic Learning App
